The Yellowstone Park Leased.

WASHINGTON, Aug. 31.—Secretary Joseph Lyman will to-morrow sign contracts for the leasing of such portions of the Yellowstone park property as may be requisite for the erection of hotels and other buildings necessary for the accommodation of visitors to the park. The lease is made to private individuals, who propose to establish a company, secure articles of incorporation, and supply visitors to the park with hotel accommodations and telegraphic facilities, transportation and guides. The parties known in the transaction are Hobart and Douglas, of Dakota, and the term of the lease is ten years. The rent to be paid has not yet been determined upon, and will be fixed by the secretary at a further conference with the lessees to-morrow. The contract will expressly stipulate that the persons entering upon the leased lands will subject themselves to regulations governing other portions of the park, and that the scale of prices to be charged for transportation through the park for guides, etc., shall be subject to the approval of the secretary.

The Star Route Thieves.

WASHINGTON, Aug. 31.—In the star route trials this morning, Hinkle, for the defense, proceeded with his argument. He called the attention of the court to the scheme of the indictment. The government has charged that the branch conspiracy, which in the indictment has been attributed to Turner, was not sustained by proof, and he argued that Turner and Turner's performances were a necessary part of the scheme of the indictment, and if the case had failed as to him it had failed as to others. He gave notice that he would present a prayer to that effect. The court inquired whether Hinkle was not a little premature in making his argument. "No, no," replied he, "I have not entered as to Turner, nor had the jury found a verdict acquitting him."

Hinkle—Mr. Merrick discharged him from the case. Hinkle said what is equivalent, that he would ask the jury to return a verdict against Turner. The court—Turner is entitled to have a verdict from the jury. That verdict has not been given, and he is still on trial, and for ought can know judicially, the jury may find him guilty. Would not the proper time for this argument be at the trial of judgment.

Hinkle—My object now is to persuade the court to instruct the jury that if they find Turner not guilty they must find the others not guilty. Hinkle argued that Turner was as essentially a part of the scheme in the indictment as Brady.

The Court—I do not see that.

Oklahoma Payee.

WASHINGTON, Aug. 31.—The war department is informed by Gen. Pope, that Oklahoma Payne and six of his followers are under arrest at the fort. Payne refused to go out of the Territory peacefully. He and his party were disarmed and taken to Fort Reno prisoners. The interior department says as this is Payne's second offense he should be tried by the civil authorities. Under the law he is liable to a fine of \$1,000 and imprisonment.

Liability of Boat Owners.

WASHINGTON, Aug. 31.—The solicitor of the treasury has given an opinion of interest to those engaged in the business of running excursions. The steamboat collectors at Philadelphia recently asked him if it was devolving on the collectors and inspectors to prosecute masters of steamships who carry passengers in excess of their license. The solicitor holds that their duties under the laws are so to speak, anticipatory. That is, they are to see that proper licenses are taken out by these companies, but anybody can bring action against the companies for violation of the law.

American Securities for Europe.

NEW YORK, Aug. 31.—Two foreign houses say the largest shipment of American securities to London within the year will be made by Saturday's steamer. The buying is thought to be insufficient to avert gold shipments.

Loose Management.

WASHINGTON, Aug. 31.—Inspector Pollock sends from Pine River agency to the Acting Secretary of the Interior a horse shoe labelled: "Would fit Jimbo. Reserve this specimen of our Indian management until I see you." The shoe was furnished by contractors to the Indian post. It weighs three pounds and is 8 1/2 inches. This indicates a very loose way of doing business on the part of the Indian agents who should not accept such goods.

CONSTANTINOPLE, Aug. 31.—The military advisers of the Porte continue to waver the right to land Turkish troops at Alexandria is indisputable. Lord Dufferin refuses to insert such a clause in the military convention, but consents to place on record a proviso that the English and Turkish staff may assemble to have power to discuss the military programme in case of necessity. The Porte is disposed to agree to this and consent to the landing of Turkish forces at Aboukir, subject to the agreement between the respective generals.

ATHENS, Aug. 31.—The Greeks were aggressive in the frontier affairs.

CONSTANTINOPLE, Aug. 31.—Reports abound that the Turkish population is favorable to Arabi Pasha.

The Turks have well reported hostilities recommenced. The government is displaying increased activity in military preparations, 5,000 troops arriving on the frontier daily.

Paralyzed by Fear.

SPECTER DISPATCH TO THE GLOBE-DEMOCRAT.

MEMPHIS, Tenn., Aug. 28.—A strange story comes from the eastern portion of this county of a woman being struck dumb while giving false testimony. The facts as related are as follows: On last Friday a colored man named James Price was on trial before Squire Allen, a justice of the peace, who has an office on the Macon road, between Germantown and Bartlett, Tenn. Price had been beating a number of women in the neighborhood, and Isabella Jackson, a colored woman, was placed on the witness stand to tell what she knew of the matter. She began her evidence, but was soon after asked by the justice "Do you not know that you are lying?"

She answered, "Yes, sir."

These were the last words Isabella Jackson ever spoke. She appeared quite independent, and to some extent impudent, when first put upon the stand. After her last remark a number of questions were asked, but the

An Address to the People of the Church and the Leaders.

They Have No Compromise to Make on the Question of Marriage.

SALT LAKE, Utah, Aug. 31.—The following extracts were taken from an address to the Latter Day Saints signed by John Taylor, George Cannon and Joseph F. Smith, published in the church this evening:

"There have been many times in our past history when great emergencies have arisen and it has been the imperative duty of the first presidency of the church of Jesus Christ of Latter Day Saints to give plain and pointed counsel to the people over whom, in the providence of God, they have been called to preside. A condition of affairs exists at the present time which makes it immediately proper that we, as the first presidency of the church, should address you this evening. The Edmunds law, designed for the repression and destruction of a portion of your religion by disfranchising all persons in the Territory, or other places over which the United States have exclusive jurisdiction, who had adopted, in obedience to the requirements of their religion the principle of celestial marriage became the law of the land, March 22, 1882, as the law required, five commissioners settled by the President and confirmed by the Senate, were sent to this territory to enforce its provisions. As a church we have repeatedly testified in the most solemn manner that the institution of marriage which the law is aimed at, has been revealed to us by the Almighty, and that it is a part of our religion that it is interwoven with our dearest and holiest hopes connected with eternity, and that, not from any just motives, but because we believe we should incur the eternal displeasure of our Heavenly Father if we did not comply with its requirements, and we had espoused this doctrine, it has been ordered by those who are ignorant of the true nature of this doctrine, and how inseparably we connected it with all our hopes of eternal happiness in that world beyond the tomb, that this is not a part of our religion that this system of marriage is not religion, that it is an immoral and odious practice that is shocking to the religious sense of the nation, and to the civilization of our age, and that the legislation framed for its repression and extirpation should be enacted, the federal legislature has therefore passed this act and the federal executive has affixed his signature. In regard to our religion or our eternal covenants we have no compromise to make or principles to barter away. They emanate from God and are founded upon the rock of eternal ages."

THE YELLOW SCOURGE.

The Fever Abating Somewhat in Matamoros—The Disease in Florida.

A special to the St. Louis Globe-Democrat, dated the 28th inst., says:

The epidemic here is not on the increase, though there are more scattering cases through the city. The bulk of the disease is now in the lower part of the town, near the San Fernando gate, and in view of the highest quarters of the city. Altogether there are not over 200 cases. Since the last report there have been fifteen or twenty new cases. For the day ending at 9 a. m. yesterday there were seven deaths here, all of the yellow fever, and for the same period ending at 9 o'clock this morning the death rate was nine, also all of fever, showing a startling increase in the mortality reports without any definite cause for the same. During the week ending at 9 a. m. yesterday, there were forty-four deaths in the city—forty-two of the fever. This is a decrease of three deaths in the total figures over the week before, but at increase of one from deaths by fever. From August 1 to 9 a. m. today, there have been in all this city 197 deaths from the yellow fever, or an average of seven a day, which is a fearful mortality.

For a town of not much more than 8,000 inhabitants.

A steamer left Vera Cruz on the 25th for Bagdad. General Cuellar and the \$1,000 collected for the relief of the Matamoros people are on board of her. She is due at Bagdad to-morrow. Gen. Cuellar, federal senator; and Gen. Hinzpach return on her.

All the foreigners here are pretty well excepted, who were taken with a relapse yesterday.

Advices from Brownsville received this morning state that there had been no deaths there since yesterday. Among them are Mr. Winston, of the Brazos Bar Improvement commission, and Father Vandenburg, the Father Superior. There was also one death in the garison yesterday, reported not to be of the fever. The disease is rapidly increasing, there being 100 cases since the last report.

The revenue cutter McLane, with Dr. Murray, of the National Board of Health, and a corps of doctors and nurses, with abundant supplies on board, arrived at Brazos de Santiago yesterday morning and left at once, taking no return mail as was reported. The greatest consternation prevailed on the other side. Since the last report there were six deaths yesterday and nine today, and twenty-nine new cases reported on the Brownsville side.

KANSAS DEMOCRATS AND PROHIBITION.

EMPORIA, Kas., Aug. 31.—The Democratic convention assembled. The committee on resolutions declares that the white Democrats of Kansas are in favor of true temperance and a just and vigorous law to suppress intemperance. Railroad Matters.

CHICAGO, Aug. 31.—A private dispatch received here to-day from Denver states that the Union Pacific is cutting rates on freight from the seaboard cities to Denver, and offering inducements to shippers in the way of passes. This course is said to have been taken to punish the Burlington road because it will not agree to build any more road in Nebraska. The war on rates will probably be between them only. The Union Pacific, Northwestern, Rock Island and Burlington directors and general freight agents met here to-day and practically decided on a uniform system of through rates to points of destination in Nebraska.
